Advertising rates on application.

Mrs. J. R. Livingston, of Chloride, visited with Mrs. A. E. Ware a couple of days this week.

T. J. Grant, who has charge of the Music Mountain mines for the Stewart-Warner people, is in Kingman.

Lovin & Withers are building a business house on the corner of Fourth and Beale streets, which is to be occupied by Van Marter and Bennet.

W. H. Knotwell, who has been working at the Golden Gem mine the past two months, came in from Cerbat a few days ago and has gone to Coperville.

A. E. Ware has purchased the interest of J. R. Livingston in the Chloride Store company. Mr. Livingston will probably depart to California where he and wife will reside.

Frank L. Hunt, assessor of Mohave county, returned from his Utah trip a few days ago. He reports the north section of Mohave county in a prosperous condition.

J. A. Elway and wife returned from Philadelphia a few days ago, and are preparing to go to the mines at Cerbat, where Mr. Elway has some properties under development.

Drifting is now under way at the 100 level of the Holy Moses mine, near Goldflat. The mine is showing up well and it is expected that a big body of ore will be cut in the crosscut from this level.

George Dinely has purchased the residence of J. E. Carrow, on Beale street and will occupy it after the first of the month. Mr. Carrow has purchased the residence of B. H. Braffett, on Third and Oak streets.

Mrs. and Mr. T. L. Ayers came in from San Francisco last Monday morning and will remain here some time. They are glad to get away from the rains and fog of the city into the bright sunshine of Arizona.

A series of six sermons will be given by Rev. Ragsdale, pastor at the M. E. church, beginning with the institution of the Lord's supper and concluding with the resurrection. Subject for Sunday evening, Christ the Singer. All are cordially invited.

John L. Hoffman, father of Mrs. A. E. Ware, who has been visiting in Kingman the past several months, returned to his home in Pittsburg last Monday. Mr. Hoffman is interested in business in this county and will visit here quite often in future.

J. M. Wheeler, L. D. Lewman, of Oklahoma City, Oklahoma, accompanied Supervisor J. C. Potts and Sheriff Walter Brown to Goldroad last Tuesday. The gentlemen were well pleased with a glimpse of one of the greatest gold sections on earth.

H. E. Wood came in from the Tom Reed section last Thursday afternoon and departed the same evening to Los Angeles. He is having the mines of his company surveyed and platted and will soon be at work on active development. The claims are close in to the Tom Reed, covering considerable of the big vein.

I. M. George is fast getting his new meat market into shape. A large packing and manufacturing establishment has been built onto the rear of the market, which will be fitted up with new and improved machinery. Everything in meats will be kept on hand. The cooling room will hold 20 beeves at a time, besides mutton and pork in quantity.

Last Monday the application of Tom McClelland and Robert Brannock for an injunction against James M. Miller and seventeen other defendants, was heard before Anson H. Smith, Court Commissioner, and an injunction granted. The cause grew out of the relocation of the mines of McClelland and Brannock by Miller and others on the first of the year. The mines are in the Union Pass section and are considered very valuable.

The Gold Road Red Top mine is the next coming mine—get in on the low price of stock.

New Courthouse and Jail.

Last Monday the board of supervisors adopted plans for a jail for Mohave county and are advertising for bids for its construction. The plan of the jail was submitted by the Pauly Jail company, through its agent, J. M. Wheeler, of Oklahoma City. It is one of the finest plans ever exhibited in this territory and the board is to be congratulated on its selection. At the same time L. D. Lewman, of Oklahoma City, submitted plans for a courthouse, which appeared to be just the thing for Mohave county. It is believed that the county will get the worth of its money in these two handsome public buildings. While nothing was done in the matter of courthouse it is understood that action will be taken just as soon as specifications and blueprints of the work can be gotten ready. During the consideration of the matter many of the business men of Kingman were present and informally talked over the building project and the materials to be used. It appeared to be the consensus of opinion that local building stone would be the cheapest and most appropriate, but it was also the opinion of those present that the board of supervisors should be unhampered by any public suggestion, as the board is composed of men who have the interest of the county at heart and who will use every effort to give the people one of the handsomest buildings that the appropriation can buy.

Hi Henry's entirely new and unsurpassed minstrels consisting of fifty all white performers, will appear at Elks Hall on Wednesday, March 10th, in an entirely new program, introducing Minstrel Stars never yet seen outside of the eastern cities. In addition to this there will be presented a new and elegant Palatial First-Part, new gorgeous costumes, new songs and ballads, new jokes and gags, fresh cultivated voices, bright up to date comedians, new special features in the Ohio and absolutely a radically different minstrel performance from any now before the public. The splendid press notices accorded this company are of the very best ever written. Seats now on sale at Watkins' drugstore.

E. D. Swope this week came in from the Salt Springs mines, of the Southwest Gold and Copper company, of which J. F. Luthy, of Albuquerque, is the president. Mr. Swope and others have been at work on the mines the past four months and have made material progress in their development. The mines have splendid showings of gold and copper ores, and being close to the Colorado river and in a well watered section of the country, should become big producers of both metals.

A man by the name of Ned White, supposed to be a brother of Peter White, of this county, committed suicide at the Beekman ranch, in Cunningham Pass, last Saturday by shooting himself through the head. The man had been drinking hard and became despondent. No one in this part of the country knew of the man, and as Peter White is at Parker nothing could be learned from that source.

A. L. McKesson has his hoister in the shaft of the Santa Fe claim, near Goldflat, and is now prepared to sink to a depth of several hundred feet. The mine is showing big values in gold in the leases on the property and it is thought that further development will bring it into the heavy producing class.

According to the crowds going to George A. Bonelli's Mill Outlet Sale, which is now going on and will continue until the 13th of March, there must be something unusual about the bargains they get there, as they all seem to carry away with them from one to a dozen packages. Last Saturday the nine clerks were kept busy waiting on customers, and in order to get from one end of the store to the other it was necessary to go behind the counter. No person could witness this sale and say that the people do not know when they are getting bargains.

An Unnecessary Expense.

There is no need of being to the expense of sending for a doctor in any case of pain in the stomach or colic when a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy is at hand. No physician can prescribe a better medicine. For sale by H. H. Watkins.

There will be no fight on the Red Top mine except a fight to get the stock at the present low price.

William O'Dea and M. J. Dempsey, who have been looking after mining business in Los Angeles the past ten days, returned home a few days ago. It is understood that while in the city they entered into a contract for the sale of the Pilgrim group of mines to an English syndicate. They are to receive a large sum of money upon acceptance of the contract, and later a large amount of work is to be done on the mines, with payments running over a period of a year or so. The mines are situated west of Chloride and in one of the most accessible parts of the Weaver district. Water can be secured readily and power can be had from the big plant at Kingman. A large amount of work has been done on the mines by the owners during the past several years.

Lovin & Withers are overstocked in men's suits. Sale now on at less than Los Angeles prices. Get a suit that will suit you.

Gold Mine for Sale.

I have for sale the FLORES GROUP OF MINES, situated at Cerbat, Arizona, and adjoining the "Gem" mine on the north. The price is right, the terms are right, and upon examination you will find the gold values satisfactory. Particulars will be furnished on request.

O. D. M. GADDIS,
Kingman, Arizona.

An Ideal Cough Medicine.

"As an ideal cough medicine I regard Chamberlain's Cough Remedy in a class by itself," says Dr. R. A. Wiltshire, of Gwynneville, Ind. "I take great pleasure in testifying to the results of Chamberlain's Cough Medicine. In fact, I know of no other preparation that meets so fully the expectations of the most exacting in cases of croup and coughs of children. As it contains no opium, chloroform or morphine it certainly makes a most safe, pleasant and efficacious remedy for the ills it is intended." For sale by H. H. Watkins.

No bargains ever offered in Kingman can compare with the suit sale now on at Lovin & Withers. They are overstocked in men's suits.

The following letters remain uncalled for in the Kingman postoffice: J. E. Schwartz, Mrs. F. J. Wilkenson, J. G. Kite, George Mitchell, Supt., W. H. Studman.

Mine Warning Notice.

To Whom It May Concern:
Notice is hereby given that the Rico mine, situated in the Wallapai mining district, Mohave county, Arizona, is under lease and bond to parties working the same, and that neither the mine nor the undersigned part owner thereof, will be responsible for any labor or debt contracted, nor injuries sustained by any employer or employee in working said property; and that no employer or employee is the agent of the owner for any purpose, and that all operations engage in such service at their own risk, and that no debt or claim of debt is valid against said mining claim or their owner.
